Subject: Due April 30, 2015 COB - Please Review & Verify TASC Site Support (March 2015)

Hi everyone.

Attached are TASC site support reports for March 2015. **Project leads and/or Regional TASC coordinators need to look at the report and verify that the written summary is accurate for the month; your review of site costs is part of the monthly approval process. Note that this month there is an additional document with site-specific other direct costs (ODCs), such as travel, supplies, meeting facility rental/etc., for the month. Please look at this document too.** Next month this table will be included in with the site costs report.

TASC Coordinators, you may need to pass this report on to the project leads in your region to complete the review. I need you to verify your sites information by **COB Thursday, April 30, 2015.** (I realize that some people may be out of the office and in this case, my review of the reports will have to suffice.)

The task order(s) associated with a site is(are) noted on the far left column of the site-specific costs pages of the report (generally pages 1 & 2), or see below for the breakdown of sites by task order:

(The list below is cumulative. As such, your site may be on the list even if it didn't receive TASC support last month. If your site didn't receive TASC support last month, there should not be a current cost listed on the attached report unless there are lagging costs.)

Task Order #1 Covering many of sites with on-going support, carried over from the previous TASC contract.	Task Order #2 Covering TANAs and CIP assistance only.	Task Order #3 Covering new projects and/or previous sites with a history of intermittent support needs.	Task Order #4 Covering Superfund Joint Training Initiative (Superfund Support)
